

Maintenance Pack

The **AutoGard Maintenance Pack** is a complimentary part of every AutoGard Protection Pack.

It provides a range of sample sized products to keep your new vehicle looking like new.

AutoGard Surface Rejuvenator is the 'First Aid' remedy against minor marks that might occur on paintwork from time to time.

The Waterless Wash and Shampoo are specially formulated to complement the AutoGard PaintGard and maintain that outstanding shine and protection. Importantly, both products contain some of the same ingredients used in AutoGard Premium PaintGard, so cleaning your car in this way actually "tops up" the paint protection on the surface.

Many glass cleaners are not compatible with window films (tint). Their use over time causes a range of problems. The most obvious is the bubbles that appear - particularly on rear windscreens. AutoGard Tint Safe Glass Cleaner cleans glass effortlessly, but will not damage the scratch-proof coating of the window film, or cause delamination or adhesive failure.

The Car Care Guide contains simple, handy tips to keep your new car looking like it just left the showroom.

Each AutoGard Maintenance Pack includes:

- u *Premium Waterless Wash 250ml*
- u *Premium Car Shampoo 100ml*
- u *Tint Safe Glass Cleaner 100ml*
- u *Surface Rejuvenator 100ml*
- u *Microfibre Cloth 40cm x 40cm*
- u *Foam Applicator Pad*
- u *Car Care Guide*
- u *Car Wash Bucket 5 litre*

Additional supplies of these products are available in 500ml bottles. Contact your fleet supplier to order.
